Executive Compliance Audit & Risk Assessment Report

1. Executive Summary

This audit report summarizes the automated compliance evaluation conducted across major e-commerce platforms. Each platform was evaluated against 12 recognized dark pattern categories under Indian Consumer Protection regulations (CCPA 2023) and international UX compliance standards. The Dark Pattern Risk Score (DPRS) measures platform risk on a 0-100 scale.

3. Regulatory Remediation Roadmap

- Urgency Patterns (Fake Countdown Timers, Scarcity): Remove hardcoded timer resets to comply with CCPA Section 4 guidelines.
- Sneaking Patterns (Pre-checked Boxes, Hidden Subscriptions): Ensure explicit opt-in checkboxes for auto-renewals.
- Misdirection Patterns (Price Drip): Disclose all mandatory convenience/delivery fees upfront on product listing pages.
